

Summer in the Psalms: My Shepherd - June 2021

Psalm 23 can be described as one of the most beloved verses of scripture in the Bible. There is a reason why the 23rd Psalm has become the most revered passages of all time. It's brought strength, hope, and comfort to so many millions of people. Do more beloved words exist? These six verses are framed and hung in hospital halls, scratched into prison walls, quoted by the young and whispered by the dying. In these lines sailors have found a harbor, the frightened have found a father and stragglers have found a friend. Because the passage is so deeply loved, is why it is so deeply known.
